

Motion 1803VCO1

Coach/Manager Code of Conduct

2. The possession or use of alcohol, tobacco or ~~any non-prescribed drugs~~ **controlled substances** is prohibited.

Discussion: This is just a correction to match what the Athlete Code of Conduct states. The current wording would almost disqualify all possible coaches and chaperones because it prohibits over-the-counter medications. Those medications would include aspirin, ibuprofen, acetaminophen, antihistamines, TUMS, etc.
